Wednesday, April 17th, 2024

9:00 AM – 4:30 PM | Check-In/Coffee begins at 8:00 AM

Vernon Downs Casino Hotel | Vernon, NY

Please join us for an informative face-to-face and virtual session! In an acquisition environment that increasingly relies on contract managers to drive innovative solutions, collaborative problem solving has become a non-negotiable skill. There is clear evidence that collaboration leads to better results than can be achieved by individual contributors. Driving meaningful collaboration can be challenging for contract managers who manage a wide variety of stakeholders, sometimes with competing priorities. This seminar will explore specific strategies for solving complex acquisition problems through collaboration and provide hands-on practice building high-trust relationships, fostering a collaborative environment, using emotional intelligence and problem-solving models to lead a team solution, leveraging collaboration tools and technology, and avoiding common collaboration pitfalls. Full training outline: https://www.ncmahq.org/Shared_Content/NES/Collaborative-Problem-Solving-for-Contract-Managers.aspx
